# Real life stories

In recent months, The Healing Meeting has been held all over the region. The stories from these meetings are extraordinary. Many people have experienced the healing power of God in these meetings.

*'Lynne Smillie (formerly Harris) is from Northfield. She was brought up constantly watching her father violently abusing her mother, finally killing her at age 33. The years that followed were a huge battle for Lynne....trying to make sense of her past, picking up the pieces with no*

*she had an amazing, life changing encounter with Jesus.'*

**COME AND HEAR HER INCREDIBLE STORY!!!**

"I had a seizure in Feb 2006 and was diagnosed with epilepsy shortly afterwards, caused by an inoperable brain tumour. A friend invited me to church where I received continual prayer & support. Now all sinister activity of the tumour has disappeared and my epilepsy has stopped. I can definitely say God has worked a miracle in my life."
